(54) GUIDE RAIL MOUNTING STRUCTURE FOR SLIDE TYPE SHOWER HANGER

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a mounting structure for a guide rail of a slide type shower hanger which can fix the guide rail on a wall face in good appearance without exposing screws on a surface thereof.

SOLUTION: A slide type shower hanger supports a hanger main body 3 along a guide groove of a guide rail 1 in such a manner that it can slide. A hook piece 7 is fixed on a back face of the guide rail 1 in such a manner that a hook part 11 is extended downward, a hook piece 16 is fixed on a wall face in such a manner that a hook part 16 is extended upward, and both hook pieces 7, 14 are hooked each other to fix the guide rail 1 on the wall face.
